

## Quality & Environmental policy

Through world class knowledge in motion, industry leading quality, and 45 years of proven performance in driverless control technology, Kollmorgen Automation AB delivers breakthrough driverless control solutions and services unmatched in performance, reliability and ease-of-use, giving AGV suppliers an irrefutable marketplace advantage.

Through the **Fortive Business System (FBS)**, Kollmorgen Automation AB achieves world class excellence in customer satisfaction, beginning with the voice of the customer, continuously improving quality, delivery, cost and innovation. We employ FBS to minimize our environmental impact in the design and management of the material content in our products as well as reducing CO2 emissions in our daily work while ensuring customer needs are fully satisfied. We comply with applicable environmental laws.

FBS provides the necessary tools and processes to enable Kollmorgen to achieve both its:

- **Vision:** Enabling Innovators to Make the World A Better Place.

And

- **Mission:** To be the best at solving the most demanding motion challenges through collaboration with our end users, customers, suppliers, innovation partners, and each other.

FBS is who we are and how we do what we do. It is more than a management system or business model – it is part of the mentality of virtually everyone in the company based on the following core values:

- **We build extraordinary teams for extraordinary results**
- **Customer success inspires our innovation**
- **Kaizen is our way of life**
- **We compete for shareholders**
